Employer/Hiring Manager

[Title]

[Company/Organization Name]

[Street Address]

[City, State Zip Code]

Note that this is **general**
application letter.

Dear **Employer/Hiring Manager**,

I am writing to express my interest in future opportunities at your organization. As a first-year Computer Engineering student at the Polytechnic University of the Philippines, I bring a foundation in technical skills, a track record of competitive involvement, and a strong drive to innovate and grow.

From participating in hackathons like InnOlympics 2025 and Sparkfest 2025 to contributing to data-driven projects on platforms like DataCamp and GitHub, I've honed my abilities in Python, data analysis, and AI-based problem solving. I take pride in building real-world solutions, such as salary prediction models and interactive portfolios, that align with user needs and industry relevance.

Beyond coding, I'm involved in tech communities like the Google Developer Groups on Campus PUP, Microsoft Student Community and the AWS Cloud Club at PUP Manila, where I collaborate with peers and deepen my understanding of modern tools and frameworks. I also contribute to The Puso Project held by Data Engineering Pilipinas, applying my knowledge to projects that make social impact.

I am especially drawn to environments that value continuous learning, creativity, and teamwork. With my adaptable mindset, self-driven learning habits, and technical aptitude, I am confident I can contribute meaningfully to your team.

Please feel free to review my [Curriculum Vitae](#), [Web Portfolio](#), and [GitHub Portfolio](#) for a detailed overview of my background. I would be honored to explore how I can be of value to your mission.

Thank you for your time and consideration. I look forward to future conversations.

Sincerely,

John Mike Asuncion
